

DUOLINE MARKER PEN

IVD In vitro diagnostic medical device

 ϵ

Professional marker pen for permanent labelling of cassettes, slides and transport containers

INSTRUCTIONS FOR USE

REF Catalogue number: MD-1 (1pc)

Introduction

Duoline marker pen is a water/solvent proof twin-point pen with following features:

- enables you to write on paper, plastic, glass and metal
- · the writings are waterproof after being dried and will not be blurred with water
- after drying, written parts become solventproof against organic solvent mainly used in the lab such as ethanol, xylene and chloroform

Product description

DUOLINE MARKER PEN - water/solvent proof twin-point pen.

Usage

- Uncap the pen and start writing. The ink will be dried in approximately 20 seconds.
- To avoid running, do not touch the ink with wet hands or dip in water before it is dried.
- . Color of the ink: black

Caution:

- . Be sure to cap the pen after use.
- · Prevent direct exposure to the sun and keep it in a dark place.

Preparing the sample and diagnostics

Use only appropriate instruments for collecting and preparing the samples. Process the samples with modern technology and mark them clearly. Follow the manufacturer's instructions for handling. In order to avoid mistakes, the staining procedure and diagnostics should only be conducted by authorized and qualified personnel. Use only microscope according to standards of the medical diagnostic laboratory.

Safety at work and environmental protection

Handle the product in accordance with safety at work and environmental protection guidelines. Used solutions and out of date solutions should be disposed of as special waste in accordance with national guidelines. Chemicals used in this procedure could pose danger to human health. Tested tissue specimens are potentially infectious. Necessary safety measures for protecting human health should be taken in accordance with good laboratory practice. Act in accordance with signs and warnings notices printed on the product's label, as well as in BioGnost's material safety data sheet.

Storing, stability and expiry date

Keep Duoline marker pen at temperature of +15°C to +25°C. Do not keep in cold places, do not freeze and avoid exposing to direct sunlight.
