| 4.1. | Description of first aid measu     | ures  |
|------|------------------------------------|---|
|      | General notes:                     | -   |
|      | Following inhalation:              | Carry the afflicted person out of the contaminated area into a well-ventilated area or out for fresh air. If breathing becomes erratic or it stops, immediately apply artificial respiration (other than mouth-to-mouth) and contact a physician. |
|      | Following skin contact:            | Remove contaminated clothing. Immediately begin rinsing with copious amounts of water for at least 15 min. Seek medical assistance if the symptoms of irritation remain.  |
|      | Following eye contact:             | Rinse out with plenty of water with the eyelid held wide open using clean fingers. If the symptoms remain, immediately call a physician.  |
|      | Following ingestion:               | DO NOT induce vomiting. If the afflicted person is unconscious, do not provide them with anything orally. Drink at most two glasses of water. Seek medical assistance.  |
|      | Self-protection of the first aider | -   |
| 4.2. | Most important symptoms a          | nd effects, both acute and delayed  |
|      | Following inhalation:              | Harmful if inhaled.   |
|      | After skin contact:                | Harmful in contact with skin.   |
|      | Following eye contact:             | Risk of serious damage to eyes.   |
|      | Following ingestion:               | Harmful if swallowed.   |
