| | National Protection an | National Protection and Rescue Dir | | 112 | |
| | Medical information: Other information: | | | +385 1 2348 342 | |
| | | | | - | |

| SECTION 2. Hazards identification | | | | | | |
|-----------------------------------|--------------------------------------|--|----------------------|--|--|--|
| 2.1. | Classification of the substanc | Classification of the substance or mixture | | | | |
| 2.1.1. | Classification according to Re | egulation (EC) No 127 | 72/2008 (CLP) | | | |
| | Hazard class and cate | egory code: | Warning statements*: | | | |
| | Aspir. Tox. 1 | | H304 | | | |
| 2.1.2. | Additional information | | | | | |
| | EUH066 | | | | | |
| * For fu | ıll text of Hazard- and EU Haza | rd-statements: see SI | ECTION 16 | | | |
| 2.2. | Label elements | | | | | |
| | Product identification: BIOCLEAR NEW | | | | | |
| | Identification number: | - | | | | |
| | Authorisation number: | - | | | | |

Page 2 of 19

| Trade name: | BIOCLEAR NEW | | | |
|---------------|--------------|----------------------|------------------|------------|
| Product code: | BCN-X** | Date of compilation: | 14 November 2022 | Version: 7 |

| | Hazard pictograms: | GHS08 | | | |
|------|--|---|--|--|--|
| | Signal word: | Danger | | | |
| | Hazard statement: | H304 May be fatal if swallowed and enters airways. EUH066 Repeated exposure may cause skin dryness or cracking. | | | |
| | Precautionary statements: | P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor. P331 Do NOT induce vomiting. P405 Store locked up. P501 Dispose of contents and container in accordance with local regulations. | | | |
| | Supplemetal hazard information (EU): | - | | | |
| 2.3. | Other hazards | | | | |
| | Physical / Chemical Hazards: Material can accumulate static charges which may cause an ignition. Material can release vapours that readily form flammable mixtures. Vapour accumulation could flash and/or explode if ignited. Combustible. Health Hazards: Repeated exposure may cause skin dryness or cracking. May be irritating to the eyes, nose, throat, and lungs. Environmental Hazards: | | | | |
| | | es not meet the criteria for PBT or vPvB in accordance with REACH Annex XIII. | | | |
| | Endocrine Disrupting Properties: | | | | |
| | No known endocrine disrupting pro | | | | |

| SECTION 3. Composition/information on ingredients | | | | | | |
|---|--------------------------|-----------------------------|---|---|--|--|
| CAS/ EC/ Index number | REACH Registration No | Weight % content (or range) | Identification name | Classification according to Regulation (EC) No 1272/2008 (CLP) | | |
| - 920-901-0 - | 01-2119456810-40 | 100% | Hydrocarbons, C11- C13, isoalkanes, <2% aromatics | Aspir. tox. 1; H304 EUH066 | | |

| SECTION 4. First aid measures | | | | |
|-------------------------------|-----------------------------------|--|--|--|
| 4.1. | Description of first aid measures | | | |
| | General notes: | If the suggested first aid measures do not prove sufficient, seek medical attention. | | |

Page 3 of 19

| Trade name: | BIOCLEAR NEW | | | | |
|---------------|--------------|----------------------|------------------|------------|--|
| Product code: | BCN-X** | Date of compilation: | 14 November 2022 | Version: 7 | |

| | Following inhalation: | | Immediately remove from further exposure. Get immediate medical assistance. For those providing assistance, avoid exposure to yourself or others. Use adequate respiratory protection. Give supplemental oxygen, if available. If breathing has stopped, assist ventilation with a mechanical device. | |
|------|--|---|---|--|
| | Following skin contact | • | Wash contact areas with soap and water. Remove contaminated clothing. Launder contaminated clothing before reuse. | |
| | Following eye contact: | | Flush thoroughly with water. If irritation occurs, get medical assistance. | |
| | Following ingestion: | | DO NOT induce vomiting. Seek immediate medical attention. | |
| | Self-protection of the aider | first | - | |
| 4.2. | Most important sympt | oms ar | nd effects, both acute and delayed | |
| | Following inhalation: | No ir | mportant symptoms or effects. | |
| | Following skin contact: | No ir | mportant symptoms or effects. | |
| | Following eye contact: | No important symptoms or effects. | | |
| | Following ingestion: | No important symptoms or effects. | | |
| 4.3. | Indication of any imme | ndication of any immediate medical attention and special treatment needed | | |
| | If ingested, material may be aspirated into the lungs and cause chemical pneumonitis. Treat appropriately. | | | |

| SECTIO | N 5. Firefighting measures | | | | |
|--------|--|--|--|--|--|
| 5.1. | Extinguishing media | | | | |
| | Suitable extinguishing media: Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames. | | | | |
| | Unsuitable extinguishing media: Straight streams of water | | | | |
| 5.2. | Special hazards arising from the substance or mixture | | | | |
| | Hazardous by products of fire: Smoke, fume, incomplete combustion products, carbon oxides. | | | | |
| 5.3. | Advice for firefighters | | | | |
| | Evacuate the area. Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply. Fire-fighters should use standard protective equipment and in enclosed spaces, self-contained breathing apparatus (SCBA). Use water spray to cool fire exposed surfaces and to protect personnel. | | | | |
| 5.4. | Additional information | | | | |
| | - | | | | |

| SECTION 6. Accidental release measures | | | |
|--|---|--|--|
| 6.1. | Personal precautions, protective equipment and emergency procedures | | |

Page 4 of 19

| Trade name: | BIOCLEAR NEW | | | | |
|---------------|--------------|----------------------|------------------|------------|--|
| Product code: | BCN-X** | Date of compilation: | 14 November 2022 | Version: 7 | |

| 6.1.1. | For non-emergency personn | el | | |
|--------|--|---|--|--|
| | Protective equipment: | See Section 8 for advice on the minimum requirements for personal protective equipment. Additional protective measures may be necessary, depending on the specific circumstances and/or the expert judgment of the emergency responders. | | |
| | Accident prevention method | Avoid contact with spilled material. Warn or evacuate occupants in surrounding and downwind areas if required, due to toxicity or flammability of the material. See Section 5 for fire fighting information. | | |
| | Emergency procedures: | See the Hazard Identification Section for Significant Hazards. See Section 4 for First Aid Advice. | | |
| 6.1.2. | For emergency responders: | | | |
| | Respiratory protection: half-face or full-face respirator with filter(s) for organic vapor and, when applicable, H2S, or self contained breathing apparatus (SCBA) can be used depending on the size of spil and potential level of exposure. If the exposure cannot be completely characterized or an oxygen deficient atmosphere is possible or anticipated, SCBA is recommended. Work gloves that are resistant to aromatic hydrocarbons are recommended. Note: gloves made of polyvinyl acetate (PVA) are not water-resistant and are not suitable for emergency use. Chemical goggles are recommended if splashes or contact with eyes is possible. Small spills: normal antistatic work clothes are usually adequate. Large spills full body suit of chemical resistant, antistatic material is recommended. | | | |
| 6.2. | Environmental precautions: | | | |
| | Large Spills: Dyke far ahead sewers, basements or confine | of liquid spill for later recovery and disposal. Prevent entry into waterways, ed areas. | | |
| 6.3. | Methods and materials for co | ontainment and cleaning up | | |
| 6.3.1. | Bunding, covering of drains; capping procedures: | Land Spill: Stop leak if you can do so without risk. Water Spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Warn other shipping. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants. | | |
| 6.3.2. | Cleaning up: | Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Recover by pumping or with suitable absorbent. | | |
| 6.3.3. | Other information: | Secure proper ventilation. Contact the responsible person; in case of larger spills and possible environmental pollution contact National Protection and Rescue (112). | | |
| 6.4. | Reference to other sections | | | |
| | See Section 7 for information about secure handling. See Section 8 for information about personal protective equipment. See Section 13 for information about containment. | | | |

| SECTION 7. Handling and storage | | | |
|---------------------------------|--|-------------------------------|--|
| 7.1 | | Precautions for safe handling | |

Page 5 of 19

| Trade name: | BIOCLEAR NEW | | | | | |
|---------------|--------------|----------------------|------------------|----------|---|--|
| Product code: | BCN-X** | Date of compilation: | 14 November 2022 | Version: | 7 | |

| 7.1.1. | Protection measures | | |
|--------|--|--|--|
| | Measures to prevent fire: | Avoid contact with skin. Prevent small spills and leakage to avoid slip hazard. Material can accumulate static charges which may cause an electrical spark (ignition source). | |
| | Measures to prevent aerosol and dust generation: | Secure proper ventilation. | |
| | Measures to protect the environment: | When the material is handled in bulk, an electrical spark could ignite any flammable vapors from liquids or residues that may be present (e.g., during switch-loading operations). Use proper bonding and/or earthing procedures. | |
| | Other measures: | This material is a static accumulator. A liquid is typically considered a nonconductive, static accumulator if its conductivity is below 100 pS/m (100x10E-12 Siemens per meter) and is considered a semiconductive, static accumulator if its conductivity is below 10,000 pS/m. Whether a liquid is nonconductive or semiconductive, the precautions are the same. A number of factors, for example liquid temperature, presence of contaminants, anti-static additives and filtration can greatly influence the conductivity of a liquid. | |
| 7.1.2. | Advice on general occupational hygiene: | | |
| | eating, drinking, and/or smoking. Routinely was | such as washing after handling the material and before h work clothing and protective equipment to remove and footwear that cannot be cleaned. Practice good | |
| 7.2. | Conditions for safe storage, including any incompa | atibilities | |
| | Technical measures and storage conditions: | Keep in a cool and well-ventilated area. | |
| | Packaging materials: | Teflon, polypropylene, stainless steel, carbon steel. | |
| | Requirements for storage rooms and vessels: | The type of container used to store the material may affect static accumulation and dissipation. Keep container closed. Handle containers with care. Open slowly in order to control possible pressure release. | |
| | Advices for storage equipment: | Storage containers should be earthed and bonded. Fixed storage containers, transfer containers and associated equipment should be earthed and bonded to prevent accumulation of static charge. | |
| | Further information on storage conditions: | Suitable materials and coating are carbon steel, stainless steel, teflon, polyethylene, polypropylene. Unsuitable materials and coatings: butyl rubber, natural rubber, ethylene-proplyene-diene monomer (EPDM), polystyrene | |

| 8.2. | Exposure controls | | | | | | |
| 8.2.1. | Appropriate engineering controls | | | | | | |
| | measures to prevent exposure protect | | ot eat, drink or smoke in the workspace. Use personal tive equipment. Wash hands after handling the product and eating and/or drinking. | | | | |
| | Structural measures to prevent exposure: | • | ate ventilation should be provided so that exposure limits t exceeded. Use explosion-proff ventilation equipment. | | | | |
| | Organisational measures to prevent exposure: | | rganization of work in order to reduce other worker's influence uring work process. | | | | |
| | Technical measures to prevent exposure: | See Se | ction 7.2 | | | | |
| 8.2.2. | Personal protection equipment: | | | | | | |
| 8.2.2.1. | Eye and face protection: | | ntact is likely, safety glasses with side shields are mended. | | | | |
| 8.2.2.2. | Skin protection | | | | | | |
| | Hand protection: | If prolonged or repeated contact is likely, chemical-resistate gloves are recommended. If contact with forearms is likely, we gauntlet-style gloves. Nitrile, minimum 0.38 mm thickness comparable protective barrier material with a high performant level for continuous contact use conditions, permeating breakthrough minimum 480 minutes in accordance with C standards EN 420 and EN 374. | | | | | |
| | Other skin protection: | | olonged or repeated contact is likely, chemical, and oil cant clothing is recommended. | | | | |

| Product code: | BCN-X** | Date of compilation: | 14 November 2022 | Version: | 7 |

| 8.2.2.3. | Respiratory protection: | If engineering controls do not maintain airborne contaminant concentrations at a level which is adequate to protect worker health, an approved respirator may be appropriate. Respirator selection, use, and maintenance must be in accordance with regulatory requirements, if applicable. Types of respirators to be considered for this material include: Half-face filter respirator Type A filter material, European Committee for Standardization (CEN) standards EN 136, 140 and 405 provide respirator masks and EN 149 and 143 provide filter recommendations. For high airborne concentrations, use an approved supplied-air respirator, operated in positive pressure mode. Supplied air respirators with an escape bottle may be appropriate when oxygen levels are inadequate, gas/vapour warning properties are poor, or if air purifying filter capacity/rating may be exceeded. |
|----------|---|---|
| 8.2.2.4. | Thermal hazards: | No information available. |
| 8.2.3. | Environmental exposure controls | |
| | Substance/mixture related measures to prevent exposure: | Comply with applicable environmental regulations limiting discharge to air, water and soil. Protect the environment by applying appropriate control measures to prevent or limit emissions. |
| | Structural measures to prevent exposure: | Use modern equipment. |
| | Organisational measures to prevent exposure: | Adapt the work process to the required working conditions of the workplace. |
| | Technical measures to prevent exposure: | See Section 6 |

Vapour concentration above recommended exposure levels are irritating to the eyes and the respiratory tract, may cause headaches and dizziness, are anasthetic may have other central nervous system effects. Prolonged and/or repeated skin contact with low viscosity materials may defat skin resulting in possible irritation and dermatitis. Small amounts of liquid aspirated into the lungs during ingestion or from vomiting may cause chemical pneumonitis or pulmonary edema.

| SECTION | SECTION 13. Disposal considerations | | | |
|--|--|--|--|--|
| 13.1. | Waste treatment methods | | | |
| | | | | |
| 13.1.1. | Product/Packaging disposal: | | | |
| | Submit for disposal to the legal person authorized by the Ministry of Environmental and Nature Protection. Do not dispose of the product's remains into the sewage system. Submit the remains to the collectors authorized by the ministry in charge. Do not dispose of the packaging into the sewage system. | | | |
| 12.1.2 | | | | |
| 13.1.2. | Waste codes/waste designations according to Law: | | | |
| | The European Waste Catalogue (EWC) code is specific to the waste generating process and waste constituents. Determine the EWC according to the criteria provided in the European Waste Catalogue and the hazardous waste list established by Commission Decision 2000/532/EC, as amended. | | | |
| | | | | |
| 13.1.3. | Waste treatment – relevant information: | | | |
| | Disposal recommendations based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. | | | |
| 10.1.1 | | | | |
| 13.1.4. | Sewage disposal – relevant information: | | | |
| Product is suitable for burning in an enclosed controlled burner for fuel value or disperince incineration at very high temperatures to prevent formation of undesirable combustice. | | | | |
| 13.1.5. | Other disposal recommendations: | | | |
| | Empty Container Warning (where applicable): Empty containers may contain residue and can be dangerous. Do not attempt to refill or clean containers without proper instructions. Empty drums should be completely drained and safely stored until appropriately reconditioned or disposed. Empty containers should be taken for recycling, recovery, or disposal through suitably qualified or licensed contractor and in accordance with governmental regulations. DO NOT PRESSURISE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND, OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY, OR OTHER SOURCES OF IGNITION. THEY MAY EXPLODE AND CAUSE INJURY OR DEATH. | | | |
| 13.1.6. | Relevant Community provisions: | | | |
| | - | | | |
| | | | | |
